## The Latest Dates

### ARRIVAL OF THE E. ANDERSON.

#### DATES TO THE 18TH OF JULY.

The steamer Eliza Anderson arrived this morning at 8 o'clock from Olympia, bringing State news to the 18th ult.

#### WASHINGTON, July 18.

Gen. Buckner, of Kentucky, went home to-day. He was here to urge the Government to respect the neutrality of Kentucky, and succeeded in exacting no promise from the Administration that it would not protect the Union majority of that State at all hazards.

#### LOUISVILLE, July 12.

The Military State Board decided that no more money would be expended on the military encampment; also demand of the Governor to call in all the arms in the possession of the State Guard, and make a fair distribution between the Home and State Guard.

Privateers Jeff. Davis and Sumter are reported to have each captured several vessels lately.

Gen. McClelland drove Col. Pegram from his entrenchments on Rich Mountain, capturing nearly all his tents, guns, provisions, wagon, and other equipments, and taking many prisoners. Some were killed on both sides. The rebels loss was much the heaviest.

#### WASHINGTON, July 12.

The gunboat Freeborn returned from Aquia Creek, and reports the discovery of the two internal machines in the water, one of which struck the rudder of the Resolute, but the fuse of the other went out. The Freeborn brought it to the Navy Yard.

Taliaferro, son-in-law to a Senator, was arrested by the Washington police as a spy. The latest reports from prominent secessionists, plans and locations were found on him.

At Monroe, Mo., on the 13th, the federal troops were reinforced, and routed the rebels, capturing Capt. Owen, who will probably be hung; also capturing 75 other prisoners, one gun and a large number of horses—20 or 30 rebels killed, several federalists wounded but none killed.

A severe shock of an earthquake was felt at Montreal, Canada, on the 12 h.

Governor Ellis of North Carolina, is reported to be dead.

#### WASHINGTON, July 13.

Since the delivery of secession speeches in Congress, traitors are growing bolder, and treason is uttered in the streets openly.

General Garnett's forces evacuated Laurel Hill and were pursued by Gen. Morris, and overtaken while fording Cheat River, when they attempted to make a stand and were routed again. They were again overtaken and brought to an engagement at Carrick's Ford. Gen. Garnett was killed. The rebels fled in great confusion. The Federal troops took many prisoners, several guns and a large amount of baggage, camp equipage, etc. The rebels left twenty dead on the field at Carrick's Ford, besides carrying off many killed and wounded.

A French war steamer with an Admiral on board, arrived at Halifax July 8th, and will go south on arrival of five or six men of war which are shortly expected.

#### WASHINGTON, July 13.

Calculations of the Post Office Department show a yearly income of postage of seceded States of only \$90,000, while the expense exceeded the sum of \$300,000. This amount is now saved by Government.

The rebel cavalry continued to be captured in small parties between Alexandria and Fairfax.

A squadron of Charleston report that it is now impossible to run the blockade.

#### FORTRESS MONROE, July 13.

Forty-five men of Blinck's regiment went out without leave and were fired upon by rebels and one was killed and several wounded who were taken prisoners.

800 troops left St. Charles, Mo., by the North Missouri railroad. They found the track torn up and 1600 rebels fired upon the train, killing two soldiers and three passengers. The Federal troops charged and routed them, killing seven and wounding twenty, and capturing twenty-seven horses. One rebel particularly hostile with a gun was hung; another tried to escape, was fired on and completely riddled. Federal loss was three killed and eight wounded.

Gov. Letcher has issued a proclamation for 7000 within two days, or men will be drafted.

J. Holt of Kentucky will be appointed Judge of the U. S. Supreme Court.

Gen. McClellan has been telegraphed to release his prisoners on simple parole of honor, and taking the oath of allegiance and a pledge not to take up arms against the government under penalty of death, except in case of commissioned officers, when he will exercise his own judgment; but in no case release an officer or private formerly in the U. S. Army.

A spy from Richmond was arrested at the Relay House, also a German woman. A number of letters from prominent rebels were found upon her.

Nathan Appleton died in Boston on the 14th. Forney was elected Secretary of the Senate.

#### NEW YORK, July 15.

The Saxonia has arrived with three days later news from Europe. The great fire in London was still burning.

A letter from Martinsburg, Va., says that Gen. Patterson is marching on Winchester by three routes.

St. Louis, July 15.  
The Army bill passed to-day, appropriating \$160,000,000; this includes pay for three months and three years volunteers. The Navy bill appropriates about \$30,000,000.

The President replied to the resolution of the House, calling for correspondence touching the annexation of Dominica, that it was not advisable at this time.

The Committee on Ways and Means had not yet considered the proposed Tariff bill.

The President approved the bill remitting and refunding duties on arms used in the suppression of the rebellion.

The amendment to the Volunteer bill, reducing the pay of chaplains fifty per cent. lower than formerly designated, has passed the Senate. The above bill passed the House by 149 to 5. Those voting in the negative were Burnett, Reid, Morton, Vallandigham and Wood.

Special dispatch to the N. Y. Post says that Col. Stone occupies the ground held by Gen. Patterson in his late battle with the rebels. A number of dead rebels were found in the woods.

Forty clerks were dismissed from the Census Bureau.

It is intimated that the secession press at Baltimore will be vigorously prosecuted.

A special dispatch to the New York Herald, dated Baltimore, July 11, has the following: Major Brown's message to the City Council says that the attack in April last, upon the Massachusetts troops, was the result of impulse, not a premeditated scheme, and that in the ensuing excitement it would have been impossible to convey any more troops through the city without fighting and bloodshed, therefore the railroad bridges were with consent of State Government and by its order, destroyed, but not with hostility to the General Government. He reviews the subsequent acts, but feels that they are sufficiently justified by the gross violation of the rights of Maryland.

Col. Thomas has been indicted by the Grand Jury for piracy and treason, and is now in jail.

#### CAIRO, July 11.

A gentleman from Memphis reports that a regiment left there for Missouri on the 10th. He also reports that there were 2,000 rebels at Point Pleasant, making preparations to attack Bird's Point.

Gen. Pillow has been superseded by Col. Atkinson. All quiet here.

#### ALEXANDRIA, July 11.

Reports from Fairfax indicate that a gradual withdrawal of the Confederate troops is going on there. Pickets were withdrawn yesterday. Our pickets have been unmolested for several days.

#### St. Joseph, Mo., July 12.

A gentleman from the interior, this evening reports that the Home Guard, of Hannibal, held their position in the College building at Monroe Station, surrounded by 1,600 rebels, up to 6 o'clock last evening, when the rebels broke and fled; twenty rebels were killed and twenty horses captured; no Home Guards killed or taken prisoners. A train containing troops from Illinois was two miles from Monroe when our informant left. The railroad will be re-opened as soon as possible. The troops from St. Joseph and Hudson arrived at Monroe after the rebels fled, and they are on their return.

Congress is still in session. Secession speeches had been made by Burnett of Kentucky, and Vallandigham of Ohio.

#### Foreign Items.

The Earl of Elgin was on the 5th of June admitted a "brother Grocer," and entertained at a magnificent banquet, in the hall of the Grocers Company, London. In the course of a speech which he delivered, Lord Elgin said: "You may have trade with a civilized country without political relations, but in China, if there was no Convention, the authorities might at any moment refuse to allow merchants to trade at all."

Five cases, containing each twenty stand of rifles, arrived at Galway on the 24, from Liverpool, for shipment by the Royal Atlantic Mail Company's steamer directed to the "Commercial Bank, New York." The agent has declined to allow the arms to be shipped until he receives instructions from the Directors and the Government.

It was elicited during the hearing of a case at Westminster, that of twenty-four gallons of milk which a cowkeeper agreed to supply to a London milkman every week, eight gallons were to be made up from the pump.

They executed at Genoa, on the 25th of June, a man named Vary, who had been guilty of three murders. More than 15,000 persons were present, nothing of the kind having taken place during the last 11 years. Vary made no resistance to being strapped to the fatal plank, but when it turned down he made a sudden struggle and got partly off it, and the shock unhooking the knife, it fell, and cut his head in two. The executioner narrowly escaped having his hand amputated.

There is a man residing at Hereford, England, named Richard Lewis, who will be 100 in August, and his brother John is 109; he has two sisters in London, the one 95 and the other 81 years. His son, residing in Bristol, is 69, and his father died at the age of 113.

More than thirty-six millions of florins, during the last four years, have been stolen in Munich, and about twenty-three millions won by the players; so that the State, after deducting two millions of florins for the expenses of the lottery, had a clear gain of eleven millions. In one year, the last year of the financial period, the State pocketed more than three millions of florins.

The Archbishops and Bishops of Austria have resolved to present an address to the Emperor, pointing out the critical position of the Pope, and earnestly praying his Majesty to defend the interests of the Church, maintain the concordat, and regulate the question of mixed marriages.

It is stated that an antiquary of Padua has found in the archives of a noble family fifty of the missing books of Livy's great historical work.

Garibaldi contemplates a voyage to America in a month or two, if war in Italy should not appear likely to arise.

A singular affair has occurred in Madrid. A captain of Marines, named Usselleti, twenty-four years of age, employed by the Ministry of Marine at Madrid, and son of one of General Prim's Aides-de-Camp, fell in love some time back with a pretty and rich young girl named Munoz, who was in a boarding school. Her parents being dead and her guardian opposed to his marrying her, though she was willing, he obtained from the Court a legal authority to remove Mademoiselle Munoz from the boarding school, to place her into the care of a respectable matron, and to visit her. One evening, on calling on Mademoiselle Munoz he found her in company with a young man named Tapia, brother-in-law of the matron, M<sup>re</sup> Martin. The day after he obtained permission from the judge to take Mademoiselle Munoz to Aranjuez. On their return to Madrid in the evening he went straight to the house in which Tapia lived, and seated himself at his door. The moment Tapia presented himself Usselleti shot him dead. When tried for it he declared that Mademoiselle Munoz had revealed to him that Tapia had insulted her in the grossest manner. He was condemned to 20 years hard labor. Last week he appealed and the Court resolved, that as an insult to the young lady he was about to marry was a gross provocation, the sentence should be quashed.

### Hostetter's Celebrated Stomach

Bitters—No medicine has ever achieved a higher reputation. In every section of the country its merits are known and fully acknowledged. The leading physicians in the country have expressed their warm approval of this preparation, as uniting all the best qualities of a tonic and invigorator, without kindling an appetite for alcoholic liquors. In cases of diseases of the digestive organs, to which all unclean persons are prone, especially, exposed, as the proper diet cannot at all times be had, the Bitters will be found to be the quickest corrective and most reliable remedy yet discovered. Diarrhoea, Dysentery, and the various bilious and intermittent fevers, all yield to the curative properties of this medicine. No person should be without the Bitters a single day.

## The Old Bridge and New Bridges.

A portion of our citizens have a decided objection to allowing any one to cross the old bridge, and carry their opposition to such an extent as to be anxious to get it pulled down as soon as possible, in accordance with the Bridge Act passed by the last Assembly. It appears, however, that they are, for some causes unexplained, unable to accomplish their purpose. Whether it is a defect in the Act, or the threat of Judge Cameron to keep the old bridge standing, that deters them, we cannot say. As there are always two sides to all questions, the old bridge is not an exception to the rule, for it has its admirers. And although reputedly in a rather weak condition, it has many staunch supporters who have no objection to crossing on the new bridges if the old one is not closed. Among the number of the latter is Mr. James Wilcox. On Saturday last he filed a complaint in equity against Surveyor General Pemberton and the Police Commissioner, A. F. Pemberton, Esq., to enjoin them from pulling the bridge down; to cause them to remove the bar placed across the bridge by their order; and to pay the cost of suit. Mr. Wilcox grounds his complaint on the loss he has sustained or would sustain were the old bridge pulled away inasmuch as his property was erected conveniently to that structure under the impression that it would always remain the main approach from Esquimalt. There can be no doubt but Mr. Wilcox, in common with others, would be injured by the removal or closing of the bridge. Still it is difficult for us to imagine that a Court of Equity can set aside the New Bridge Act. At any rate, the promise of the Chief Justice to keep the bridge where it is, cannot but afford encouragement to the admirers of that venerable piece of engineering skill. It will be interesting to watch the progress of this suit. If the Chief Justice fulfils his threat and nullifies the bridge statute, we may expect another rumour between the Assembly and himself. If he ignores the complaint, the extra-judicial decision given from the bench will lower the bench in public estimation. On either horn of the dilemma somebody will be impaled—consequently the bridge squabble is made more and more interesting.

## Esquimalt Road.

This road promises to be a continual bone of contention. Owing to the opportune assent of Her Majesty to the Harbor Dues Bill, or the smothering influence of the imbroglion between the Chief Justice and the Assembly, the funds were not borrowed from the surplus revenue to construct it. A loan was, however, called for on the security of the Harbor Dues Fund. In the meantime the Esquimalt Road Commission made a contract with Mr. Trutch to complete the road before next October. Whilst everything appeared to be in a fair way to have a new road to Esquimalt next winter, things are found to be in a perfect snarl. The Attorney General claims that the Commission had no right to make a contract; so the labors of that patriotic body go for nothing. After a field fight on all sides the sapient conclusion is arrived at not to construct the road this season. Consoling, is it not? The occasion now appears to be to make good the approaches to the new bridges before winter sets in. Thus there is a probability that something will be done for Esquimalt Road during 1861, though it be but little, and though the people of Esquimalt be destined to come out at the small end of the horn for another season. Were administrative genius a commercial commodity, the demand for it at James Bay would prevent a glut in the market for a long time.

THE STEAMER "PACIFIC."—An ineffectual effort to pump out the hull of this steamer was made on Sunday last. Pumps were rigged in every available spot on the steamer, a heavy turned sail was hauled down over her bows, and under the forefoot, where the original damage was done, and every other place where a leak was supposed to exist was caulked up as well as circumstances would permit. At 11 o'clock in the forenoon all the ship's pumps were started, and kept constantly going till 12 1/2 P. M. when Engine Co.'s 1 and 2 arrived, and they began to work, pumping commencing again, and lasted without intermission until 6 o'clock P. M., when all hope was abandoned of raising her in this manner, the tide being found to ebb and flow in her without any apparent opposition. The steamer lies in a very precarious position, and it is the opinion of some that it would cost more than the ship is worth to raise her. She is lying with her head up stream, with a heavy list to starboard, her whole weight resting on her starboard bilge. Her cut water from the water-line to the keel is entirely stove in, and it is believed that the force of the shock started from her bows, and perhaps whole struts—Portland Ad.

## RESOLUTIONS.

At a special meeting of the St. Andrew's Society of Vancouver Island, held in their room, Victoria, this 5th day of August, 1861, it was resolved,

1. That the members of this Society do hereby unite in expressing their deep and heartfelt sympathy with the respected mother of the late Captain Archibald Jamieson, proprietor of the steamer Cariboo, and with other surviving relatives of that lamented gentleman, on the unprecedented and irreparable loss they have sustained in his melancholy death, and that this Society desires especially that the aged parent of the deceased may obtain Divine help to bear up under that succession of trials whereby she has been called upon to part with several other members of her family engaged in the enterprises of navigation on this coast from accidents of a similarly painful nature with the one that has recently enveloped in gloom the community of this city.

2. That the members of this Society do hereby express their affectionate concern and grief to Mrs. Spark, widow of the late Mr. John Spark, Mate of the Cariboo, at the distressing calamity that has so suddenly deprived her of her lamented husband, and they trust that she may receive from the Almighty such consolation as her afflicted situation presingly requirer.

3. That the members of this Society wear the usual badge of mourning thirty-days for their deceased brothers.

4. That a copy of the above resolutions be published in the local papers, and also forwarded by the Secretary to Mr. Jamieson, Ar. an, Scotland, and to Mrs. Spark, Victoria. By order, WILLIAM WALLS, Sec'y.

## House of Assembly.

TUESDAY, August 6, 1861.

House met at twenty minutes past three o'clock. Present—Speaker Helmecken, and Messrs. Burnaby, Foster, Cary, Gordon, Franklin, McDonald, Tolmie, Waddington, Cresce.

The Speaker stated the order of the day to be the consideration of the question, Shall the supply be granted; and also the consideration of Mr. Tolmie's resolutions.

House in committee, Mr. Waddington in the chair.

Mr. Tolmie read a series of resolutions introduced the day previous, which were as follows:

1. That the internal improvement of the Colony is of primary importance.

2. That the utmost necessity exists for the improvement of existing, and the opening up of new roads into agricultural districts.

3. That the proceeds arising from instalments due upon land, if not demanded by the proper authorities, should, after payment of the civil list, be applied to the opening and improvement of roads into and within the rural districts, such a disposition of those moneys being in accordance with the terms upon which those lands were purchased.

4. That placing the amounts to be received from instalments upon land to the general service of the year, not only does away with but is contrary to the terms of purchase, and moreover renders taxation unequal, the greater burden falling upon the agriculturist.

Mr. Tolmie said that although we have tracts of land far superior to any south of the line, ours are not settled because they cannot be got to. People on the American side are clearing ground at a cost of \$50 an acre, because their land is taken up, while here we have not begun to do so. He said that if we had roads our farmers might supply British Columbia and Victoria with necessities, and much money now sent away might be kept among us. He had paid £1 an acre for his land, with the understanding that the Government would devote a portion of the purchase money to the making of roads and bridges—it had not been done. The Government had broken faith with the settlers. The roads are most wanted, and the resolutions should be adopted.

Mr. Foster considered that nothing could be more conducive to the prosperity of the Colony than opening roads; a good system of roads is better than any other scheme that can be introduced. Every settler will tell you the agricultural districts can supply the town if roads are made. In Canada and other Colonies no settlement could be flourished without internal improvement; and our greatest want here is proper arteries leading to the interior in all directions.

Mr. Burnaby seconded the resolutions if only as a matter of justice. The Government had broken faith with the settlers, and should be held to the agreement.

Mr. Cary did not exactly understand the resolutions; they might mean one thing or they might mean another. The money paid on lands is crown revenue and not colonial revenue. No fund can be set aside for colonial purposes from that source, because it is not under the control of the House. The reason the roads were not made was because the money has not been paid. The Imperial Government owns the money derived from land sales, and the charge so often made against the Colonial Government of having broken faith is incorrect. No matter who made the agreement with the settlers he had no right to do so. He accounted the idea that there were no roads to the interior, and said that wherever there was a fine patch of land it was taken up by speculators and held for speculative purposes. If that land were in the hands of actual settlers they would make roads themselves.

Mr. Helmecken—The object of these resolutions is that they may be sent to the Executive and he may alter the Estimates to suit them. In any other Colony the passage of resolutions of this character would depose the Ministry; but here the Governor was the Ministry, and there was no fear of their passage deposing him. Numerous systems were tried by the Home Government and put in force by the Hudson Bay Company, with regard to these lands, and it was finally decided that a great deal more land might be obtained at £1 per acre if paid for in instalments, and roads and bridges made with the money. The £200 voted last year for the roads should have been expended, and more should be given this year. The £300 voted to the use of the Hospital should also have been laid out. It is too bad that the sick man, reclining on his pallet, should be neglected, while there is always just money enough on hand to pay the officials' salaries. If it were not for benevolent parties in town the Hospital would have closed for want of funds long ago; but if the money voted by this House and British Columbia had been paid, it would do have been in a flourishing condition. Taxation here is unequal, for the agriculturists pay more than any one else. Immigration schemes will not answer till we have provided for the people already here. He had no objection to granting the supplies, but he had to the shape in which they were presented. The Estimates show that there is one house-chaise legislation, and the town is to be supported by the Colony, and Victoria is to be Vancouver Island. The revenue from the lands, we are told, does not belong to the Colony, and yet the officials are paid from it. The Hudson Bay Company's rule was better than this, for the Company did make some roads; but not a road has been made by the present Government. The roads should be made, whether their making benefits speculators or actual settlers. The Government was well pleased to receive our £1 an acre, and let it be kept to its agreement. The Estimates should be altered to give a larger proportion of the public moneys to the roads.

Mr. Waddington objected to the Estimates being granted in their present shape. Last year they footed up £15,103, and this year they nearly reach £21,000—a most astonishing increase. We have no roads, no steamers, no incorporation; nothing but general discontent is visible. £30 are asked for the hospital, and a Grand Jury is not allowed to look into it. The police are to be provided for, and the town will be incorporated on the 9th of November. On roads, hospital, education, and the Government is exceedingly economical. Let a plain statement of affairs be sent to the Home Government. Tell them how we are situated, and I believe that relief would be had. We were deceived last year into voting the Estimates, and we must be careful we are not deceived again. Numerous breaches of faith having taken place on the part of the Government, he felt constrained to say that its promises were not to be relied upon.

Mr. Franklin took the ground that the lands should be given to the colony; every other colony had them; but this, poor, unfortunate one has not yet arrived at that condition. We have a prospect of prosperity before us and were compelled to rely upon our own resources. The Home Government has only paid for the seal of office and the lighthouses. He could not favor the resolutions in toto, but favored immigration, and believed that means would soon be within our grasp to enable us to borrow £200,000 at a low rate of interest for that purpose. If this colony, which has been so badly treated, refuses to grant supplies, all we ask may be granted. They have done such things in other colonies at once they sent a governor whom they didn't like home.

Mr. Foster moved that a committee wait upon His Excellency and request that the Estimates be re-framed before the supplies are granted. The policy adopted by the government reminded him of the little boy who fences in a bit of ground and says, "I'll keep my own garden and no one else shall come near it." Just so the legislation ran with regard to Victoria. Such legislation was improper; the town was as much benefitted by the agricultural districts as the agricultural districts were by the town.

Mr. McDonald thought the resolutions went back too far when they tried to hold the House to contracts made by others. The town and colony cannot be separated—they are one. The country will receive as much benefit from the moneys voted as the town.

Mr. Cary reviewed the third and fourth resolutions, and declared there was no difference between the town and the country. The country lands sold on a credit of four years, while the town lands sold for cash; but one contributed in the end as much as the other. United action is required—everything must give way, let us not set up the town against the country. The Colony bound down and fettered till its affairs with the Hudson

Bay Company are settled, and no money can be borrowed on the instalments now due on land. The fate of Vancouver Island hangs on one string; there must be direct steam communication next spring, or the golden moment will slip by never to return.

Mr. Tolmie replied that he did not have so poor an opinion of the Colony as to believe that it would die out from want of steam navigation. Without roads, no Colony can be built up.

Mr. Cresce opposed the application of all the funds to the making of roads.

Mr. Helmecken had a few remarks to make in answer to Mr. McDonald and Mr. Cary. He thought that if direct steam communication was not needed till next spring, it would then be time enough to vote for that purpose till that time arrives. He thought he could show by the Estimates that if the £4,000 was applied to the civil list and the making of roads, there would still be enough left to make provision for steam communication. If the resolutions did not meet the views of the House they could be amended so as to do so, without descending into altogether.

Mr. Franklin offered the following amendment: "That the proceeds arising from the sale of Crown lands should be applied towards the colonization and improvement of the Island, such being the original intention of Her Majesty's Government in relation thereto; and the policy is carried out in other British Colonies." It appeared to him that if the House could control the proceeds of land sales, it certainly ought to have control of the land.

On a division being taken on Mr. Franklin's resolution, the vote stood thus: Ayes—Messrs. McDonald, Franklin, Cresce, Cary and Gordon—5. Nays—Messrs. Tolmie, Helmecken, Foster and Burnaby—4. The amendment was accordingly carried.

The question as to whether the resolution should be laid before His Excellency with the grant of supplies was carried by similar vote—5 to 4.

The committee then rose and reported favorably on the grant of supplies and that the resolution which had passed the committee be laid before His Excellency.

The Speaker informed the members that the House would go into Committee on Supplies on Thursday next.

Mr. Burnaby gave notice of the following motion:—"That to-morrow he should ask for an official statement of the several sums voted last year, with a detailed statement of the sums actually expended under the several heads voted."

At 7 p. m. the House adjourned till Wednesday at 3 o'clock.

**FALLING FROM GRACE.**—Yesterday Edensah, the famous Hydah chief, lately commissioned to act as policeman at the Northern Indian encampment, got drunk, and before long pitched into another Sivasah and attempted to arrest him on a charge of being tipsy. The latter resisted, and a free fight ensued, during which both Edensah and his antagonist were badly cut and bruised. They were both finally arrested and taken to jail. Edensah will probably lose his commission to-day.

**SUBSCRIPTION LIST.**—A subscription list in aid of the widow of John Spark, one of the victims of the Cariboo, was circulated yesterday. We understand that the lady is in needy circumstances, and that pecuniary aid will be acceptable. The members of the St. Andrew's Society have responded to the call as liberally as their means will permit, and it is to be hoped that our citizens generally will not be backward in contributing to so worthy an object.

**NUMBER OF INTERMENTS.**—Mr. J. Primm, Sexton of Christ Church, has furnished us with a statement of the interments at the Church Reserve Cemetery for the six months ending June 30th. The total number is 26, classified as follows: Dropsy, 2; drowned, 2; homicide, 1; accidental, 2; disease of the heart, 1; apoplexy, 3; consumption, 5; debility, 2; paralytic, 1; child-birth, 1; enlargement of liver, 1; infants, 5.

**A PORTION OF THE BOILER OF THE CARIBOO FOUNDED.**—Yesterday "Billy the Bug" discovered in the water near Shoal Point the cylindrical portion of the Cariboo's boiler; the tubes are entire. The smoke-stacks and a quantity of rice are also lying near by. They will be fished up at low water to-day.

**TALL GRASS.**—The Timothy grass sent us from Port Douglas the other day must hide its diminished heads. We were yesterday shown samples of Timothy grown near this city which measured six feet six inches in height! Can they beat that over the Sound?

**A FRENCH CONSUL.**—The French Journal of San Francisco—the *Echo du Pacifique*—says that a French Vice Consul is to be dispatched to this port from San Francisco. He will reside here permanently, and is expected to-day on the Sierra Nevada.

**THE "SIERRA NEVADA."**—This steamer was at Portland on Saturday last, and was announced to leave on the same evening for this place. As she did not arrive yesterday morning, it is fair to presume that she did not leave until Monday morning, and will be in to-day.

**AT HALF MAST.**—The flags of the Eliza Anderson were at half-mast yesterday as a mark of respect to the memory of Captain Jamieson and those who perished with him through the explosion of the Cariboo.

**IDENTIFIED.**—The black valise recovered from the wreck of the Cariboo by Captain Frain, has been identified as belonging to M. De Garro, one of the victims by the disaster.

**ON THE MOVE.**—Workmen have commenced to remove the old express office on Yates street. It will take a rest on Langley street at the rear of the theatre.

**THE OLD GRAVEYARD.**—The chain-gang were yesterday at work at the old graveyard digging up the human bones. They will be taken to the Church Reserve Cemetery.

**AUCTION.**—P. M. Backus will sell at 12 o'clock, to-day, at his salesroom, Yates street, one saddle horse.

**Geo. P. McKee, Esq.,** has been appointed Solicitor to the Victoria Gas Company.

**The steamer Otter** will not leave for the river until this evening.

**LOOK OUT FOR YOURSELVES!**—We have not yet been placed in possession of the name of the steamer that Dr. Dickson was told by a practical engineer was unsafe, and would shortly blow up. We advise our citizens and the traveling public to look out for themselves. If there is a steamer running out of this harbor, the boilers of which are unsafe, it is but right that all should know it. We have no relish for any more horrible items such as that of the Cariboo disaster, and as our worthy Coroner has publicly stated that his information was reliable, we again call upon him for the name of the vessel.

**RIFLE CORPS.**—The Rifle Volunteers muster from thirty to sixty members at each drill, and the progress which they are making is the subject of general praise. On Monday evening, J. T. Pidwell, Esq., was elected to the position of Honorary Secretary to the Corps.

**EXPLOSION COMMISSION.**—We understand that a Commission has been appointed by His Excellency Gov. Douglas to examine into and report upon the causes of the explosion of the boilers of the Cariboo.

**The Eliza Anderson** will leave at 7 o'clock this morning for the Sound.

## ADDITIONAL PER ANDERSON.

## CALIFORNIA.

Dates from California are to the evening of the 26th of July:

The Danish ship Cimber arrived at San Francisco from Hongkong on the 22d ult., with over 727 coolies.

Gov. Downey has commuted the sentence of Hurligan, who was to have been hung for cutting his wife's throat, to imprisonment for life.

The steamer Santa Cruz, which for a short time past has been in the United States revenue service, under the name of General Sumner, was lately sold to a China firm, who intend running her between China and Japan.

Lady Franklin and niece have returned to San Francisco from the Sandwich Islands. They are homeward bound.

The treasure bags stolen from Freeman's express, a year ago, have been found in the possession of Mrs. Mulhare, the wife of one of the thieves. She will be tried as an accomplice.

The Irish citizens of San Francisco are determined to have a funeral procession in honor of McManus on the 20th of August, and forward the remains on the steamer of the 21st.

A great democratic mass meeting has been held at San Francisco.

Attachment suits were commenced on the 20th ult., against Carl & Fint for \$951 in the aggregate.

The Mint coined \$61,599 in gold last week.

W. H. Brown, tried twice for the murder of the negro Sam Johnson, was released on his own recognizance.

Doney's trial for the murder of Hirsch will occupy the greater portion of a week.

Frederick Locke, a German tailor, committed suicide on the 22d ult., at San Francisco, by cutting his throat with a pair of tailor's shears.

Dr. Munson, employed in the mint, was missing for several days, but afterwards turned up at San Jose.

James Hughes of the steamer Bragdon, shot John Saunders, pilot of the Helen Hensley, at San Francisco, on the 22d. The ball passed through Saunders' breast and came out at the back. Wound supposed to be mortal.

**SANDWICH ISLANDS.**

The bark Comet from Honolulu to San Francisco brings dates to June 25th.

There are only seventy-four whaling vessels cruising in the North Pacific this season.

On the 12th June, T. J. Dryer succeeded Borden as U. S. Consul.

It was proposed to raise a volunteer regiment in Honolulu for the war against the Southern Confederacy.

The British Acting Commissioner and Consul General gave a grand entertainment to Lady Franklin. The ball was opened by the King and Miss Craycroft.

**AUSTRALIA.**

Bark Otta, 82 days from Newcastle, brings Sydney dates to the 25th April.

The town of Newcastle was inundated, and the inhabitants took refuge on the roofs of the houses and in the tree tops. They were rescued by pilot-boats.

The German bark Rembrandt, founded at sea April 16th, on the passage from Newcastle to New South Wales. Ten of the crew and one lady passenger perished.

**CHINA.**

The bark Benefactor has arrived at San Francisco, bringing China news to the 12th June.

A letter from Hongkong, dated June 12th, furnishes the information that the Yangtze river was open to American trade, the Taeping authorities assenting to all the points submitted for their notice. Vessels will have the right to navigate the river to Hankow, and Americans to be protected in all their rights. The river is not safe for Chinese vessels, its banks being held indiscriminately by imperialists and rebels. While this state of things exists, the trade will be in the hands of foreigners. Siang Kiang, the second port of importance on this river, recently opened by the new treaty, was being closely invested by the rebels as the American squadron passed down. The people in the neighborhood of Fyehow were suffering for want of food. There was only rice enough for one in ten. As a consequence they were not picking the new teas.

It has been officially announced that the allied troops will be withdrawn from Canton. That city would doubtless be immediately pillaged and plundered by the rebels, who were near at hand and only awaiting the opportunity.

The American ship Alfred Hill, Capt. Negall, from Boston, bound to Hongkong, struck on the Pratas on the 23d of May and became a total wreck. The crew arrived at Hongkong on the 29th. They had been taken by pirates, stripped of everything and finally handed over to fishermen, who took them to Hongkong for \$1,800.

**JAPAN.**

Dates from Kanagawa, Japan, are to the 16th of May.

The Japanese purpose sending special Embassadors to the several Courts with which they have treaties, ostensibly for the purpose of urging the postponement of that article of the treaty which permits foreigners to reside in the city of Yeddo for the purpose of trade after the 1st of January next. In the event of the fulfillment of that part of the treaty, it is believed civil war would be the consequence, and rather than concede, the Japanese Government will have recourse to war with the foreign Governments.

## DRUGS &amp; MEDICINES

**THE WORLD'S FRIEND!**

**Holloway's Ointment.**

**A Cure for Piles and Fistulas.**

Inflammation of sensitive parts, piles, fistulas, and such like painful diseases may be presently relieved and ultimately cured, by the proper and diligent use of this cooling and healing Ointment, whose action should, in such cases, be assisted by judicious doses of Purgatives. In many days have elapsed the anxious patient will experience a wonderful degree of ease from this treatment. They are equally suitable to both males and all ages.

**Coughs, Colds, and Asthma.**

These complaints of the chest come on with alarming frequency. The Ointment should assiduously be rubbed at least twice a day on the chest and between the shoulders. As the disease advances the symptoms will gradually give way, the breathing become freer, and the oppression less. No medicines are more efficient in chest complaints, none can be used with equal safety and certainty. Both Pills and Ointment may be accompanied by very clear and simple directions or using them.

**A Man who refused to have his Leg off.**

From the *Kilrush Advertiser*, June 2nd, 1860.  
BENJAMIN COX, Esquire, Magistrate, said, in the Court Room at Kilrush, that he knew a man who had been lame in the room. This celebrated Ointment, purchased at Ennis, Holloway's Pills and Ointment, as he said, it could not be worse with him. "Then," said Mr. Cox, became by their use as sound as I have ever seen in the room. These celebrated Pills and Ointment will cure any wound, sore, or ulcer, however long standing, if properly used according to the printed directions.

**Gout and Rheumatism.**

The essence of these diseases lie in the blood, which is floating through each vessel, the pain-giving poison, which irritates and inflames every tissue of the system, and is the cause of the most excruciating enlargement about the joints and of the most violent and dangerous diseases. The philosophy of cure consists in purifying the blood.

**Dropsy, Swollen Legs or Ankles.** The various kinds of dropsies, whether windy or watery, arise from some obstruction to the free dis-

on them, though the blood vessels or lymphatics, or ducts of the  
 glands, or the circulation of the fluids, or the action of the  
 bowels, or the remedies, of which the efficacy cannot be  
 ascertained, act directly upon the blood, the absorbents, or  
 the excretions, can long resist. They regulate, however  
 the proper flow of blood to every organ, and purify  
 the blood, they filter out everything that is morbid, and  
 injurious, they thoroughly regenerate every part of  
 the body, yet potent as they are for good, they are powerful  
 also for evil. They do not contain mercury or arsenic,  
 or any of the poisonous substances. They act safely and certainly.

**Bad Legs, Bad Legs, Bad Breasts, and Old Ulcers,**  
 This Invaluable Ointment was never known to fail  
 in the cure of any wound, any sore, or any ulcer,  
 which could be proved by innumerable testimonials from  
 persons who had been discharged from Hospitals as  
 incurable, and persons who had been pronounced  
 as sound as when they were the day they were born, were  
 this incomparable Ointment. For pimples, blotches,  
 scald heads, and scrofulic humours, it is equally  
 efficacious.

In the Ointment and Pills should be used in the  
 following cases:

Bad Legs	Chilblains	Fistulas	Sore-throats
Bad Breasts	Chapped Hands	Gonorrhoea	Skinn-diseases
Ulcers	Corns (Soft)	Glandular	Scaly
Swelling of Joints	Contracted	Swellings	Sore-heads
Swelling of Testes	and Piles	Swellings	Sore-ears
		Swellings	Ulcers

There is a considerable saving by taking the larger sizes.

N B—Directions for the guidance of patients in every disorder are affixed to each Pot.

**Greeley's Bourbon Bitters.**  
The popularity of these bitters is justly due to the purity of the material which they are prepared, and the delicate combination of simple alteratives and tonics so well calculated to net upon every part of the digestive organs through them to reach and cure all complaints arising from a diseased condition of the Stomach and Bowels.

**GREELEY'S BOURBON WHISKEY BITTERS**  
A highly nourishing and fattening, and as a Tonic for old people, delicate ladies, consumptive patients and all weakly persons, they cannot be surpassed. In cases of Weakness or Debility, they will give immediate relief, and impart a strong, healthy tone to the system.

ility, Flatulency and Nausea, and all complaints consequent upon a disordered state of the Stomach and Bowels, they are not equalled. As an agreeable stomachic, they are much admired; they sharpen appetite, brighten the intellect, and infuse new vigour. No one who uses these Bitters can be subject to an attack of Fever and Ague or Diarrhoea, but put up in Quart Bottles, in cases of one and two, and for sale by Druggists, Grocers and Liquor Merchants every where.

success and favor with consumers. In all cases of  
DYSPEPSIA, DEBILITY, LOSS OF APPETITE,  
irregularity of the stomach, they will be found  
irrefragably remedial, as well as a most wholesome and  
valuable Tonic.

As a preventive of Chills and Fever, they have no  
equal, and have with thousands become an indispen-  
sible family medicine; being perfectly pure and free  
of any deleterious substance, can be taken by all,  
young and old, male and female, with benefit.
